Large Koura fixtures make a statement in any installation - and there are 2 sizes even bigger!

The smaller sizes of the Koura light are open on the bottom for relamping

The Koura 500, 750 and 1000 are suspended from the electric cordset, while the Koura 1600, 2000 and 2400 have 3 suspension wires. Larger fixtures can be relamped by gently removing the rivets from the top piece.
